I have asked this same question before, but I was told I did not know how to use Google. Now I know how, though. Here is the question again: When I press the "S" key, it either changes the next letter to "M" or removes the "S". Is there any way to have the "S" key pressed, but not change the next letter? A: Remap the S key to actually mean something else (like Shift), and not interfere with the expected functionality of the S key. You can use a tool such as KeyRemap4MacBook to map keys in OS X. Alternatively, you can try the F.1.07 patch below to reverse the functionality of the S key. To reverse the "S" key, look at post #9 here. You'll just need to replace the contents of /Library/Preferences/com.apple.symbol-remap.plist with this one:
